trip highlights

Challenge yourself on the most comprehensive trek in the Everest region

Combine our Everest Base Camp and Gokyo Lakes treks with a stunning crossing of the Cho La pass looking over Tibet's Cho Oyu

Trek with the experts, enjoying ample acclimatisation time on a fully supported expedition

Soak in the serenity at the Pangboche monastery, thought to be the oldest in the Khumbu

Soak up the atmosphere at Everest Base Camp

Discover Sherpa Culture at its 'capital' in Namche Bazaar

Experience a breathtaking Himalayan mountain flight to Lukla

Stay energised with three hearty meals per day prepared by our cooks

Immerse yourself in Kathmandu

Trip Duration	21 days	Trip Code: EVC
Grade	Moderate to Challenging	
Activities	Trekking	
Summary	21 day trip, 17 day trek, 2 nights hotel, 11 nights camping nights in private eco campites, 7 nights eco lodge	

welcome to World Expeditions

Thank you for your interest in our Everest Circuit & the Cho La trip. At World Expeditions we are passionate about our off the beaten track experiences as they provide our travellers with the thrill of coming face to face with untouched cultures as well as wilderness regions of great natural beauty. We are committed to ensuring that our unique itineraries are well researched, affordable and tailored for the enjoyment of small groups or individuals - philosophies that have been at our core since 1975 when we began operating adventure holidays. Our itineraries will give you the very best travel experience, designed by people with incredible local knowledge who share our vision of authentic exchange and real exploration with a responsible tourism approach. Whether you like your adventures to include trekking, touring, cycling, mountaineering, kayaking or cruising World Expeditions can make it happen for you. We hope you will join us for a life changing experience.

why travel with World Expeditions?

World Expeditions have been pioneering treks in Nepal since 1975. Our extra attention to detail and seamless operations on the ground ensure that you will have a memorable trekking experience. Every trek is accompanied by an experienced local leader trained in remote wilderness first aid, as well as knowledgeable crew that share a passion for the region in which they work, and a desire to share it with you. A highlight of trekking with World Expeditions in the Everest region is the development of our unique eco friendly private permanent campsites. You will enjoy a full service trek including 3 wholesome meals each day prepared to the highest standards of hygiene and served in our heated dining rooms where you are welcome to relax on cushioned seating at the end of each trekking day. Our tented accommodation is in locally made, head high tents with comfortable camp beds, and we supply you with high quality 4 season, down sleeping bags in your trek pack. Bathrooms in our camps comprise of composting toilets and convenient wash basins. In the main villages we stay in handpicked eco lodges, and in Kathmandu we use an excellent centrally located 4 star hotel. You can be sure that when booking a World Expeditions trek in Nepal there will be no hidden costs - our all inclusive treks represent the best value for money. Most importantly, our adventures have always sought to benefit the local peoples we interact with, safeguard the ecosystems we explore and contribute to the sustainability of travel in the regions we experience. We invite you to read more about our sustainable travel practices and philosophies in these trip notes.

Spectacular traverse from Gokyo Lakes to Kala Pattar
affording incredible views of Mount Everest

World Expeditions does not require single travellers to pay a surcharge for travelling alone. We will arrange for you to share accommodation with another traveller of the same gender and if we can not match you up we will provide a single room at no extra charge. If you prefer not to share a single supplement is payable to guarantee your own room. Please refer to our website for the additional cost. Single supplement charges relate to nights spent at the Radisson Hotel in Kathmandu and our permanent eco-campsites. In other locations single rooms are allocated when available, during peak periods single rooms cannot be guaranteed in Lobuche and Gorak Shep.

the trip

Combining our classic Everest Base Camp and Gokyo Lakes treks with a stunning crossing of the non-technical Cho La pass provides an unsurpassed circuit trek of the Everest region. We make climbs of the popular Gokyo Ri and Kala Pattar along the way, which provide magnificent photo opportunities of the world's highest mountain, Mount Everest, and views as far as Kanchenjunga in the east and the Tibetan 8000m peak Cho Oyu to the north. We will also view Lhotse, Nuptse, Pumori, Cholatse, the beautiful pyramid of Ama Dablam, as well as countless other Himalayan peaks. There is also time to visit the famous Base Camp, and during the months of March, April & May, will view the many expedition camps. Each night you will be accommodated in our private eco campsites as well as handpicked eco lodges. Another dimension to this adventure is the famous Sherpa culture providing a truly unforgettable experience.

Advice for people with limited mobility

This trip is not suitable for people with limited mobility.

*Ask our staff for more information.

- all park entrance fees and trekking permits
- porters to carry all personal and group equipment
- porter's insurance

Local cash payments are becoming increasingly popular with many operators in the adventure travel industry. The policy seems to benefit the tour operators, more than the local economies or travellers, as it avoids local taxes and transfers the cost and risk of cash handling to travellers. In accordance with our Responsible Travel practices we have chosen a policy not to ask for such payments.

what's not included

- Lunch & dinner in Kathmandu
- Bottled water, aerated & alcoholic drinks
- Items of a personal nature such as phone calls, laundry, etc
- Tips
- International flights
- Airport and departure taxes
- Visa
- Travel Insurance

detailed itinerary

DAY 1 Arrive Kathmandu

You will be met by a representative of World Expeditions and transferred to the Radisson hotel. Remainder of the afternoon at leisure. A pre-trek briefing will be given around 4.30-5pm where arrangements will be made for the distribution of your kit bag, sleeping bag and down/fibrefill jacket. This evening we will head out for dinner, this is a great opportunity to get acquainted with your fellow group members.

Overnight: Radisson Hotel

meals: NIL

DAY 2 Free day in Kathmandu or drive to Ramechap (approx 5 hours)

Depending on the season, you will either have a free day to explore Kathmandu's bustling streets and significant landmarks or embark on a bus ride to Ramechap, a small town that operates flights to Lukla, the gate way trekking in the Everest region. Overnight: Private eco-camp

* NB: At time of writing, flights from 1 December 2019 to February 2020 remain operational from Kathmandu to Lukla. This situation is subject to change and your leader will brief you on flight arrangements locally.

meals: B

DAY 3 Fly Lukla (2800m). Trek to Ghat (2600m). Walk approx 2 hours.

We have an early start with a short flight to STOL airstrip at Lukla. The Tenzing-Hillary Airport in Lukla was established by Sir Edmund Hillary to help access the Everest region and the Sherpa people. It is a picturesque flight with marvelous views of the Eastern Himalaya. Once at Lukla we are immediately presented with views of huge peaks surrounding the village, offering a glimpse of what is to come. Our crew assembles and we head downhill towards the Dudh Kosi, a raging river that flows

everest circuit & the cho la

affording incredible views of Mount Everest

thoughtful travel

The natural environments that you'll travel through are fragile; the cultures and traditions precious and often the communities we pass through are reliant on tourism. It is our responsibility as visitors to minimise the impact of our presence, protect what is precious and where we can leave a positive impact. Learn how you can do this by downloading the Thoughtful Traveller booklet from our website.

trip grading

Moderate to Challenging

These adventures involve trekking, cycling or rafting in remote areas in variable weather conditions for up to 8 to 10 hours+ a day (possibly more subject to weather conditions and altitude). This may include spending successive days at altitudes not generally exceeding 6000m. These trips may often be over three weeks in duration. You will need an excellent level of fitness, be prepared to carry a daypack weighing up to 8kgs (and in some cases a full pack) and be completely comfortable in adverse weather conditions.

* Suggested preparation: One hour of aerobic type exercise, four to five times a week for three to six months prior to departure. Hill walking with a pack in variable weather conditions or on/off road cycling is also recommended.

adventure travel

By its very nature adventure travel involves an element of the unexpected. In remote and developing countries do not expect standards you are used to at home. Remote areas are sometimes unpredictable and itineraries may be altered. To get the most out of your adventure it is important that you are flexible, positive and eager to take on all the challenges that arise. If you are uncertain about your suitability for this trip we recommend that you speak with your consultant or travel agent.

from the highest peaks. The broad and well-marked trail meanders around fields of potatoes and buck-wheat, passing through small villages and rows of dahlia trees to our first overnight private eco campsite at Ghat.

meals: B,L,D

DAY 4 To Monjo (2850m). Walk approx 4-5 hours.

Today we cross and re-cross the thundering glacial river, named 'Dudh' (milk) Kosi (river) because of its colour. Sections of today's walk are through pine forest and cleared areas reveal terraced fields and a variety of crops. We pass small groups of donkeys, yaks and dzopko carrying trading goods and trekking gear along the trail. A dzopko is a yak-cow crossbreed while a yak is a full-blood long haired male, more commonly found at higher altitudes. Spectacular mountain peaks unfold above us and seem to hover above the tree-line as they rise above the deep river valley. Shortly after leaving camp we cross the Kusum Khola, a tributary stream to the Dudh Kosi, and the peak of Kusum Kangru (6369 m) can be seen to the East, at the head of the valley. Further along the trail, across the valley to the North-West, Nupla (5885 m) and Kongde Ri (6093 m) rise above the forested ridges. At a turn of the trail, Thamserku (6808 m) rises majestically, seemingly from the river floor. We will see our first Mani walls today. These stone structures are a compilation of many stone tablets, each with the inscription 'Om Mani Padme Hum' which translates to 'Hail to the jewel in the lotus', and is mantra (chant) venerated by Buddhists and Brahmans alike. Buddhists will walk to the left of these Mani Walls and chortens, but you may notice that people of the lowlands who have no knowledge of Buddhism do not follow this practice. The allure of the mountains is hard to resist, but we must be patient, as it is very important to acclimatise slowly and thereby fully appreciate our time at higher altitude. Today's walk is not a long one, and you will be eager to press on. Slow down, and enjoy the journey. Overnight at our private eco camp site located above Monjo.

meals: B,L,D

DAY 5 To Namche (3440m). Walk approx 4-5 hours.

We start the day by passing through the gates of Sagamatha National Park. This national park was established to address the rising problem of deforestation and to stem the use of firewood in the surrounding areas. Only local villagers are permitted to collect wood for personal use but must first gain approval from authorities. We follow the trail to the confluence of the Dudh Kosi (river) and the Bhoté Kosi, cross a spectacular suspension bridge with fluttering prayer flags and start our ascent to Namche Bazaar, the Sherpa capital of Nepal. It is a challenging climb but serene pine forests landscapes and the first glimpse of Mt Everest (8848m) provides a much needed motivational boost. The trail continues to meander up to Namche, a popular acclimatisation town nestled around the horse-shoe shaped valley. Today's trek will all be worth it once you see the beautiful peaks of Kongde Ri directly opposite the valley. After lunch there are opportunities to explore Tibetan trader's stalls and markets in search of a bargain.

Overnight: eco-lodge

meals: B,L,D

DAY 6 To Kyangjuma (3550m), Walk approx 3-4 hours

Our trek will start with an incline to Syangboche airstrip and along the ridgeline towards Everest View Hotel. We are welcomed with magnificent views of the surrounding mountains including Everest, Lhotse, Thamserku, Khangtega, Ama Dablam and many more. After a quick break, we continue towards Khumjung and visit Sir Edmond Hillary's famous "Schoolhouse in the clouds." This school was the

everest circuit & the cho la

Spectacular traverse from Gokyo Lakes to Kala Pattar
affording incredible views of Mount Everest

important note

These trip notes represent the most current information for this itinerary, and may supersede any information in the current brochure, including but not limited to the itinerary and price. The itinerary should be seen as a guide only. This itinerary may change at any time due to inclement weather, forces of nature and other circumstances beyond our control.

first in the entire Khumbu region being built in 1961 with the help of the Sir Edmund Hillary and the Himalayan Trust. The school originally opened with only two classrooms but has since expanded to cater for over 350 students. We descend and follow the trail for approx 25 minutes to our new exclusive campsite at Kyangjuma. For those who are feeling the early effects of altitude can opt for a shorter acclimatization walk of around 2 hours directly from Namche to Kyangjuma.

Overnight: Private eco-campsite

meals: B,L,D

DAY 7 To Portse Tenga (3600m). Walk approx 6 hrs

Heading North-East we initially follow the main trail to Thyangboche as it contours around the hills, before we branch off on a climb on the flanks of the sacred peak of Khumbila (5761 m). We traverse for some time across yak pastures as the trail gradually ascends to Mon La. Below us is the confluence of the Dudh Kosi and Imja Khola and across the valley Thyangboche monastery is framed by Ama Dablam and Kantega. We reach a stupa draped with prayer flags atop a ridge at 3992 metres and then descend steeply through forest to the Dudh Kosi. Crossing the river we pass a water-powered grain mill and eventually to our private eco camp at Portse Tenga. After afternoon tea an optional walk up the ridge beyond camp will bring us to the village of Portse.

meals: B,L,D

DAY 8 To Dole (4000m). Walk approx 3 hrs.

The early morning sun warms the camp site and we head north, still following the Dudh Kosi towards its source, the magnificent Ngozumpa Glacier. An initial short climb gets us onto the trail for the steady climb towards Gokyo. Since leaving the main trail we have seen progressively fewer trekkers and locals and the relative isolation of the trail is a pleasure. Sections of red birch, fir and dwarf rhododendron forest are interspersed with areas of yak pasture as we gradually gain altitude. We pass pleasant waterfalls and can rest and gaze at the glaciers that flow from Taweche and Cholatse on the opposite side of the valley. Behind us, spectacular ridges lead to the peak of Khumbila and the numerous unnamed peaks that reach almost 6,000 metres. In the distance Kantega and Thamserku rise above the foothills. It was at Dole that one of the more recent and "credible" yeti sightings took place. Ask your trek leader for details and draw your own conclusions. Overnight private eco campsite in Dole.

meals: B,L,D

DAY 9 To Machhermo (4410m), walk approx. 3 hrs.

Continuing a steady but constant climb, we reach the "village" of Machhermo for lunch. Like the few small villages in this valley, Machhermo has only a few buildings and these are empty much of the year. Villagers in Khumjung and Khunde generally own land here high up the valley, where they graze yaks in the summer months. Our camp sits in the valley amidst stunning surroundings and is one of our most popular stops on the circuit. This is a valuable acclimatisation day as we prepare for the higher altitudes and our ascent of Gokyo Ri (5483m). This afternoon can be spent relaxing or you may wish to stretch your legs and take a walk up the ridge behind Luza for a view of the Gokyo Valley. Just a short walk from camp is the Machhermo Porter Shelter and Rescue Post which is well worth a visit, here you can learn more about altitude and the work of IPPG (International Porter Protection Group). Overnight private eco camp.

meals: B,L,D

everest circuit & the cho la

Spectacular traverse from Gokyo Lakes to Kala Pattar
affording incredible views of Mount Everest

DAY 10 To Gokyo (4759m). Walk approx 5-6 hrs

Following the valley high above the river, we commence the ascent to Gokyo village. There are excellent views of Cholatse at the village of Pangka and we stop to enjoy them. We are now in high alpine country and as we approach the Ngozumpa Glacier we trek onto the moraine and rock that extends down from it. We enjoy excellent views of Kantega to the south and Cho Oyu to the north. Each mountain has its individual character and presence, and you can understand why mountain people have such spiritual significance. Once we have ascended the snout of the glacier the path levels. We pass the first of the lakes, Longponga, before reaching, Taoche Lake, a larger body of water and a place where ducks are often seen swimming in the freezing waters on their annual migrations to and from Tibet. As we walk up the valley our path parallels the Ngozumpa Glacier while separating us from the glacier is the massive lateral moraine. Overnight eco lodge.

meals: B,L,D

DAY 11 Ascent of Gokyo Ri (5483m). Walk approx 4 hrs

An early start is made to take advantage of the early morning views. The steady yet unrelenting ascent of Gokyo Ri will take two to three hours, depending on your level of fitness and acclimatisation. It is not a race and times of up to six hours are cherished by those who thought they would not make it at all. If you find the climb hard work don't hesitate to ask one of the guides to carry your day pack. You will be elated when you reach the summit with its spectacular view. Probably the most comprehensive view of 8,000 metre peaks in Nepal, many people consider it to be Nepal's best. Surrounding us are Cho Oyu (8153 m), (a mountain that defeated a British Expedition of climbers, including Hillary, in their lead-up to their successful assault of Everest), Gyangchung Kang (7922 m), Lhotse (8501 m), Makalu (8475 m), Cholatse (6440 m), Taweche (6542 m), Kantega (6685 m), Thamserku (6808 m), Lobuche (6145 m) and Mt Everest (8848 m). Hundreds of other peaks fill the scene, whilst below us the Ngozumpa Glacier, the largest in Nepal, stretches through the valley. The striking colour of the lakes below completes the picture. The only way to get a better view of the entire Everest region would be to climb an 8,000 metre peak! Although further from Everest than Kala Pattar, the traditional viewing point, here we see more of the mountain and enjoy a more relaxed environment to view the peak. Overnight eco lodge.

meals: B,L,D

DAY 12 To Thangnak (4800m). Walk approx 4-5 hrs

We weave our way towards Thangnak on a trail that meanders through a section of the largest glacier in Nepal. It's an exciting hike, as we leave Gokyo and begin the approach towards the Cho La. There are great views today of Cho Oyu and Cholatse. Keep an eye open for Himalayan Thar on the rocky slopes. Overnight eco-lodge.

meals: B,L,D

DAY 13 Cross Cho La (5420m) to Dzongla (4843m). Walk approx 8-9 hrs

We start early to take advantage of the stable early morning weather pattern that generally prevails in the Himalaya. Depending on the snow conditions, it will take us approximately 5 hours to reach the saddle of the pass from Thagnak. There will be time on the top of the pass to soak in the experience before the descent into the valley and the camp on the other side. This is a special day and for some the highlight of the trip. The views are excellent all day. Words fail to describe the beauty

everest circuit & the cho la

Spectacular traverse from Gokyo Lakes to Kala Pattar
affording incredible views of Mount Everest

and the sense of achievement of this pass crossing. Finally as we descend to our camp beside the steep north face of Cholatse, the stunning peak Ama Dablam comes into view. Overnight private eco campsite.

meals: B,L,D

DAY 14 To Lobuche (4930m). Walk approx 3 hrs

The early morning sun is welcome after a cold night and reveals a dramatic panorama of spectacular peaks. We traverse high on the flanks of Awi Peak, above the village of Chola and continue past Cholatse Lake. Beyond the lake, the Chola Glacier flows steeply from a saddle between the cliffs of Cholatse and Taweche in a rugged and beautiful display. We crest a small rise and before us unfolds the stunning form of Nuptse (7745 m), rising above the Khumbu Glacier. We continue our traverse until we join the busy trail from Thyangboche to Lobuche, where the volume of people and yaks may come as quite a shock. The successful 1953 British Expedition to Everest thought of this place as a warm and pleasant rest point. The hill above the settlement affords fine sunset views of Nuptse. Overnight eco lodge.

meals: B,L,D

DAY 15 To Gorak Shep (5288m) & Base Camp (5360m). Walk approx 7-8 hours

We trek alongside the Khumbu Glacier as the path winds over the rocky moraine towards the settlement of Gorak Shep. We are high, among the glaciers of the world's highest peaks. Following our arrival at Gorak Shep we have an early lunch before we commence our trek to Everest Base Camp. In the pre monsoon season many expeditions can be seen at base camp and this excursion is one of the highlights of the trek. Overnight lodge.

meals: B,L,D

DAY 16 Kala Pattar (5545m), & trek Dingboche (4330m), walk approx. 7-8 hours

Kala Pattar is not a Nepali name but a Hindi name and translates to "black rock". From these black rocks atop the hill the views are spectacular. Most eyes are locked on the mass of Everest and its rocky buttresses immediately before us. Many of the famous ascent routes are quite clear. Below us the Khumbu Glacier snakes towards the icefall and Western Cwm. We can see the area where expeditions set their base camp but the original site was at Lake Camp, now known as Gorak Shep. Take a look in every direction and soak it in. The view south and our route out, is particularly beautiful. In the afternoon we make the return trek to our private permanent camp at Dingboche, soon after setting off we reach the site of a row of cairns to Sherpa climbers who died on Everest, before we continue to the small settlement at Tugla. Our path on an old lateral moraine takes us to the sheltered village of Dingboche and our private eco camp. To the east at the head of the Imja Khola valley sits the pyramid peak of Imja Tse (6189 m). This afternoon we can walk up the ridge behind Dingboche for sunset views of Nuptse, Lhotse and Chhukung Peak.

meals: B,L,D

DAY 17 To Kyangjuma (3550m). Walk approx 7 hours

There may be a tendency to rush as we gradually descend downhill but there is still much to appreciate. We follow the Imja river and eventually cross the Pheriche river to our lunch stop at Deboche. We continue after lunch through serene rhododendron and birch forests to reach Thyangboche monastery and our overnight camp at Kyangjuma.

Overnight: Private eco-camp

meals: B,L,D

everest circuit & the cho la

Spectacular traverse from Gokyo Lakes to Kala Pattar
affording incredible views of Mount Everest

DAY 18 To Ghat (3440m), walk approx. 7 hours

If the weather is clear, the mountain views as we approach Namche Bazaar are outstanding. As we approach the end of our trek, we have time to peruse the Tibetan shops for souvenirs or even wander the Sherpa capital and relax with a coffee. Leaving Namche we descend through the forest towards the Dudh Kosi, and continue our return journey crossing and re-crossing the river. It will seem like a long time since we ascended through the villages on our first days of the trek, as we have witnessed many stunning views on our trek into the highest mountain range in the world. We exit Sagarmatha National Park and reach Ghat for our overnight camp.

Overnight: private eco-camp

meals: B,L,D

DAY 19 To Lukla (2800m). Walk approx 5-6 hours

Retracing our steps along the valley, we pass through a variety of settlements and forests before a gentle climb to Lukla. We savour our final mountain sunsets of the trek as we complete this exhilarating journey. Our last evening of the trek is a perfect time to celebrate a successful journey and say thanks to the team, especially the porters who will return to their villages from here.

Overnight: eco-lodge.

meals: B,L,D

DAY 20 Fly to Kathmandu or return via Ramechhap

We start the day with a stunning morning flight over forests and villages to Kathmandu directly or to return via Ramechhap. Upon arrival, you will be transferred back to the Radisson Hotel and have the remainder of the afternoon free. There will be plenty of time to relax or do some last minute shopping/sightseeing.

Overnight: Radisson Hotel or similar

meals: B

DAY 21 Trip concludes in Kathmandu

After breakfast arrangements cease unless further ones have been made. Those people departing by aircraft will be transferred to the airport.

country information

People from all walks of life are drawn to Nepal to experience the incredible Himalaya. Whether it is witnessing the windswept summits of the world's highest mountains, an early morning visit to a monastery high in the Himalaya, or sipping on a cup of warm Nepali tea with your trekking crew as you watch the sunrise over the mountains, we are sure you will find your adventure in Nepal with World Expeditions inspiring and rewarding. Far from the rush of the modern world, and in the delightful company of our trek crew, you will settle into a daily rhythm in the mountains that is immensely enjoyable. Our dedicated and experienced crew will take excellent care of you, helping you to relax, stay healthy and enjoy the beauty of Nepal. Their warmth and openness will give you an insight into their culture that will add a deeper dimension to your

everest circuit & the cho la

affording incredible views of Mount Everest

adventure. The camaraderie within your group that gradually develops on the trail, and the unexpected friendships you form with the locals you meet, will be highlights of travelling in this wonderful country.

Nepal's population of around 30 million people practice a blend of Hindu, Buddhist and traditional animist religion. While Nepal is a predominantly rural society, with 90% of the population living outside metropolitan areas, Kathmandu is rapidly urbanizing with a population of around 1 million. With over 100 different ethnic groups and languages, and an unparalleled concentration of World Heritage Sites in the Kathmandu Valley, Nepal offers a fascinating cultural tapestry like few places on earth.

climate

Our trekking season in Nepal extends from mid-September to May. However within this period there are clear seasons in the weather. Trekking in Nepal during winter, from December to February, offers cool to mild and clear days with often very cold nights. Occasionally winter storms can bring snow as low as 2500m. In March the cold, dry winter season begins to give way to warmer, spring conditions. Mornings are usually clear with cloud build-up occasionally bringing afternoon rain. Late spring conditions, in May, are generally hot at low elevations and as the clouds build up to the next monsoon which generally begins in June, daily afternoon rainstorms are common. This is a period that generally has clear weather at the higher altitudes and is traditionally a time when mountaineering expeditions commence their ascents. The monsoon creates a rainy season in Nepal, which lasts from mid-June to mid-September. During this time the Nepal Himalaya is unsuitable for trekking, with the exception of a few remote valleys. World Expeditions offers treks during this period in Tibet, the Indian Himalayan regions of Kulu, Garhwal & Ladakh, Central Asia and Pakistan, places that are at their best during this time.

The post-monsoon period - From early September the monsoon rain starts to decrease. By mid-October through to mid-December the weather is usually stable with mild to warm days, cold nights and clear views. Daytime temperatures can reach 25 - 30 degrees Celsius at lower altitudes and decrease as you gain height. Over 3000 meters the daytime temperatures can vary as much as 10 to 20 degrees Celsius, and may be hotter or colder, depending on whether it is sunny or windy etc. At night at lower altitudes, temperatures do not normally drop much, although as you approach November it does get colder and the days shorter. Up high it can drop sharply at night, from 0 to minus 10 or 15 and more when camped on the ice or snow.

The pre-monsoon period - In March the cold, dry winter season begins to give way to warmer, wetter spring conditions. Mornings are usually clear with cloud build-up bringing occasional afternoon rainstorms. Views of the mountains in the middle of the day and afternoon may often be obscured. Daytime temperatures increase quickly in March with temperatures of up to 30 degrees Celsius and mild nights. At higher altitudes it is similar to the conditions of the post-monsoon period, however there is usually more snow, which has accumulated over the winter period. There are spectacular displays of rhododendrons and wildflowers at this time of year. Late spring conditions ie April and May, are generally hot at low elevations and as the clouds build up to the next monsoon, daily afternoon rainstorms are common.

mountain flights

Twin Otter aircraft is the usual mode of transport to and from Lukla. This service is fairly dependable, however in case the flights are cancelled due to mountain weather conditions, World Expeditions will charter a helicopter to ensure you are on schedule for your international flight connections. The helicopters can fly if the visibility is 1500m, while the Twin Otter can fly if the visibility is 5000m as per the Civil Aviation Rules. The cost of the helicopter is payable directly to our Kathmandu office in the event that this service is utilised. US cash, travellers cheques, or credit cards (Visa, Mastercard & American Express only) are accepted. You will be given a receipt upon payment so that you may claim the amount from your travel insurance.

everest circuit & the cho la

Spectacular traverse from Gokyo Lakes to Kala Pattar
affording incredible views of Mount Everest

The minimum cost will be US\$350 and maximum US\$650 depending on the number of group members. The maximum allowance for checked luggage on these flights is 15kg per person and 5kg for hand luggage. These limits are strictly adhered to so please pack carefully. Please note that approx 5.5kgs of this weight will be taken up by the sleeping bag (2.5kg), down jacket (1.5kg), kit bag (1kg) and sleeping bag liner (0.5kg) that you are provided.

a typical day

You will be woken with a cup of tea brought to your tent around 6:30am, followed by a small bowl of warm water for washing. Before breakfast you pack your gear into your kit bag which is then taken by the pack-animals or porters and will not be available to you until you reach camp that afternoon. After a wholesome breakfast we are usually on the trail between 7.30 – 8am, depending upon the duration and nature of the day's walk. We will walk for around 3-4 hours and then generally break for lunch for about 1 hour. Some of our staff will walk ahead and select a suitable place to stop. The afternoon walk is generally a little shorter and camp is usually reached by around 3.30 - 4.30 pm. Once we have reached camp and the kitchen is set up, afternoon tea will be prepared. From then until dinner there is time to rest or explore the surrounding area. Dinner is usually served between 6-7 pm. Remember to bring your headlamp and your water bottles to the dining tent so they can be filled with boiling water. Trekking evenings afford some of the best memories of your trek, whether it is talking, playing cards, chatting with the crew or joining in some singing and dancing with the local people. Much of the enjoyment of an expedition is in the journey itself.

private eco campsites

The Everest area is a built up region. It's the homeland of the Sherpa people and the highest mountains on earth. As a result, it is Nepal's most popular tourism region for trekkers. Over time, villages in the area have grown with scores of lodges, restaurants and trekking equipment shops. We have observed many companies change over from camping to lodge/tea house trekking with these developments. These accommodations are reliant on wood from the region for heating, cooking and to generate warm showers. Some have solar technologies which are crude and not consistently functional as they rely on fine weather conditions. World Expeditions has always argued that lodge/tea house trekking is therefore a drain on a natural resource which is becoming increasingly scarce. We cannot consciously contribute to this problem which is now termed as a deforestation crisis. Our private eco campsites provide innumerable benefits. Firstly, we are able to continue our philosophy of offering camping treks which is the most sustainable type of trekking, whilst offering a greater level of comfort as a result of the construction of a permanent dining room structure which will replace the traditional mess tent. Meals will be taken in the dining rooms, and at the end of the trekking day, you may relax with cushioned seating and a pot belly stove that is fueled by yak dung and not wood, to warm the room. There are no smoke emissions in the room as the chimney carries it outside. An ablution block comprising of several toilets with composting western sit toilets and hand basins are also installed in our camps. Our camps create an atmosphere of privacy and exclusivity and come with fine views of the mountains - a place where our travellers and staff come together, and where camaraderie and friendships are formed. We know this to be a highlight of our camping treks and consistently receive feedback that overwhelmingly supports this. Finally, our camping treks employ many local people – a workforce of up to 25% more than a lodge trek provides.

Hot shower facilities are available at some locations in the Everest region. These locations are: Ghat, Namche, Deboche, Dingboche, Lobuche, Dole, Machhermo and Gokyo. There will be a small charge of between 300-650rps to utilise this service, and it is subject to availability. Most, but not all, World Expeditions trips in the Everest region visit one of more of these locations.

wilderness camps

Our wilderness campsites function without any permanent infrastructure. These are traditional expedition style camps which are set up when we arrive. These camps consist of a mess tent, kitchen tent, toilet tent and two person tents for sleeping. These sites have been handpicked for their scenic locations and permanent structures are not permitted under the national park rules.

eco lodges

In areas where there are no suitable campsites we chose to stay in carefully selected eco lodges. We have selected these lodges with our responsible tourism practices in mind and they use a mix of cow/yak dung/solar and generators for power. Our cooks will prepare all your meals, which means that we are able to maintain a high level of hygiene and a varied menu.

dietary requirements

Provided we are advised in advance of your departure we are able to cater for vegetarian diets and can assist with medically recommended diets (allergies and intolerances). Please ensure you discuss your requirements with us well in advance (at least 1 month prior to your trip) to determine whether we can cater to such dietary requirements on your chosen adventure. Please note that options are likely to be limited in very remote locations or alternatives may be more expensive or unavailable. There may be times when those with special requirements may need to provide their own food. We are unable to guarantee a peanut-free or allergen-free trip, and therefore, we strongly encourage that travellers with life-threatening or severe allergies take all necessary medical precautions to prepare for the possibility of exposure. Passengers must travel with all necessary medications for food allergies and be capable of self-administering these medications.

equipment provided

You will be provided with the use of a World Expeditions trek pack which includes a quality sleeping bag, down or fibre fill jacket and insulated mat (valued at over US\$500)

accommodation in Kathmandu

In Kathmandu we stay at the comfortable, well located Radisson Hotel. Whilst trekking we camp at private eco campsites or stay in eco lodges.

what you carry

In your daypack you will need to carry extra warm clothing (depending on the altitude, location and weather), a rainjacket, water bottle, camera gear, valuables and personal items such as sunscreen, lip-eze etc. Porters and mules carry all group gear and your trek pack.

equipment required

Specialist gear required include walking boots and day pack (a comprehensive gear list is provided in the pre-departure information provided on booking).

acute mountain sickness

When we ascend above 2500 metres our bodies have to acclimatise to the decreasing amount of the oxygen available. To allow our bodies to adjust we have structured our treks so that you ascend slowly, allowing acclimatisation to occur. However, during the acclimatisation process, you may experience some of the following symptoms.

- Headache
- Tiredness
- Disturbed sleep
- Loss of appetite/nausea
- Shortness of breath
- Cough
- Palpitation
- Swelling of the hands and face

Individuals acclimatise at different rates. Your best strategy is to take your time and drink plenty of water. These symptoms may not indicate the onset of A.M.S. and if you experience them it does not necessarily mean that you should not continue. All our group leaders have extensive first aid training and we urge you to communicate with the group leader at all times should you believe you have any symptoms in order that we can effectively monitor your symptoms. The only cure for Acute Mountain Sickness is to descend.

Please note that your group leader has ultimate responsibility and may ask you to descend if symptoms persist.

porter initiatives

Porter Welfare in Nepal: the Himalaya

Porters are an integral part of the World Expeditions philosophy and style of travel. We take our travellers off-the-beaten track, avoiding the congested trails, to experience our often remote tent-based adventures ... this style of trekking is enabled by porters. When we trek, the entire group - travellers, guides and porters alike - are a team who share the same needs for safety in the mountain environment. Our Himalaya porters receive the following:

- *A good working wage that is regulated by the Trekking Agents Association of Nepal and the Labour Union of Nepal. We pay per their guidelines, which are unionised.
- *We are one of the only trekking companies in Nepal to provide our porters with three meals a day, prepared by our cooks.
- *We are one of the only trekking companies in Nepal to provide our porters with lodging or tents, sleeping mats and blankets.
- *Porters also receive life insurance and income protection insurance.
- *Access to same first aid care that our travellers receive including emergency helicopter evacuation if required.
- *Porters are provided with wind and waterproof jacket and over-trousers, 2 pairs of woollen socks, 2 pair of leather shoes on long treks and 2 pairs of canvas shoes while on short treks, woollen gloves, warm cap, sunglasses, mattress and blanket and tent / lodge.
- *Porters are not to carry more than 30kgs.
- *The minimum age for a Porter is 16 and the maximum age is 50 years old.

everest circuit & the cho la

affording incredible views of Mount Everest

World Expeditions supports the good work of a number of international organisations that operate to ensure the health and education of porters, they are:

International Porter Protection Group >> www.ippg.net

International Mountain Explorers Connection >> www.mountainexplorers.org

Kilimanjaro Guide Scholarship Foundation Inc. >> www.kiliguides.org

vehicles & safety

During the course of your trip, we will use a variety of vehicles, all of which are fit for purpose and the conditions encountered. It should be noted that laws governing transportation safety may differ from those in your home country and whilst wherever possible, vehicles with seatbelts are provided, on occasion some vehicles may not have seat belts fitted.

info nights

World Expeditions invites you to attend our inspiring adventure travel information nights. These special evenings are designed to inform and entertain and are hosted by our most experienced and passionate adventure travellers and mountaineers. Ask our staff for a info night schedule or register on our website - www.worldexpeditions.com. Shows can fill early so it is important to register your attendance so we know to save a seat, or two.

private groups

The adventures featured in our brochures, and on our website, are just a starting point for many of our private group travellers. Working closely with our Groups Department we can organise custom designed itineraries for groups of friends, clubs, charity's, schools or even work colleagues. Our team will assist you with all aspects of your private group adventure from itinerary design to group flights. Contact our team today.

trip availability

If this trip seems right for you then we encourage you to call us now to check availability. There are many reasons why you may not be able to join your desired departure and limited space on our small group departures is just one of them. Many of our adventures require us to secure services on your behalf; such as trekking permits, train travel and visa invitation letters. The demand is increasing each year making it difficult to join a trip last minute. To ensure we can

everest circuit & the cho la

assist you onto your adventure of a lifetime we ask that you check your trip availability with our team at your earliest convenience.

how to book

To book a World Expeditions trip, you will need to complete a booking form and pay a non-refundable deposit which you can do by using our online booking function for most trips, or if you prefer, download a booking form from the website and return to us by fax, or mail your booking form and deposit to your nearest World Expeditions office or travel agent. We can also help you with any additional arrangements that you require, such as competitive airfares to get you to your destination, stopovers, pre or post trip accommodation or any additional tours that you wish to take in conjunction with the main World Expeditions trip.
